

Funnel Stand

Installation/Assembly Instructions

NOTES: Please check for any damage caused by the shipping company and take appropriate steps to file a claim, if needed.

*Please call **Digsafe** and check for any underground utilities before digging anywhere.

Materials needed

Cordless drill/driver, T25 bit, spade shovel, level (optional), tape measure (optional).

Instructions

1. Remove items from pallet or packaging. You should find one (1) funnel stand holder, two (2) legs, one (1) leg brace, two (2) feet, eight (8) funnels, and one (1) package of hardware.
2. Attach the leg brace (ends labeled “A” and “B”) to the legs matching up the letters.
3. Attach the funnel holder to the legs (ends labeled “C” and “D”).
4. Attach the feet (labeled “E” and “F”) to the legs.
5. Insert the funnels and move assembled funnel stand to desired location.
6. All wood is treated with kid-friendly preservative, but as is the case with all wood facing the elements, it needs to be cared for, so check it periodically for rough spots, splinters, etc, and sand them out, and treat it with kid-friendly wood preservative (we have it available if you can’t find it) once or twice a year to keep the wood from deteriorating.
7. Enjoy your Funnel Stand!
