HPWP-BUB

Shipping Weight: 90 lbs
Shipping Dimensions: 83"L X 40"W X 17"H
Brand: Natural Playgrounds Company
Toxicity: child friendly wood preservative
Age Appropriateness: all ages

It’s so easy to install one of our stainless steel playground Drinking Fountains, or playground Bubblers, on your playground, you should have done it long ago!

No more filling jugs, canteens, or coolers with water and then lugging the heavy containers onto the playground. No more worries about contaminated containers, or cleaning them out.

A shallow trench is all that’s needed, and you can run the hose from your existing spigot on the side of your building to wherever you want the water.

We also make the wooden stanchion with a stainless steel bubbler and spigot combination so you can attach a hose to water the gardens, or you can attach a sprinkler that waters the children during hot weather.

(waters the children! Like, waters the grass! :)

PS: The feed pipe is inside the hollow wooden column so that the sun cannot hit the pipe directly, so the first water out of the bubbler can’t burn the kids!
