The Peg Climb is one of our more challenging, upper body, natural fitness units.

There are two Peg Climbs attached to a single post, which means that two children can compete to see which one can pull themselves to the top first!

For those of you worried about children's upper body strength, this is a perfect solution, recommended for ages six and up.

Depending upon the age of the child, this peg climb can be mounted at any height.

Comes with complete, simple installation instructions, all materials (except for the concrete), and all hardware.
