Age Appropriateness: all ages

3 Tier Collection Table is a fabulous addition to any playground.

Kids love to collect things: leaves, grass clippings, handfuls of sand and dirt, pebbles, sticks, wildflowers, pieces of bark, or anything else they can pick up.

Once it’s on the table, they can sort, count, rearrange, make patterns, mix materials together, and do many other creative activities.

The three tiers provide an extra dimension that makes the table more visually attractive, but that also provides a way to segment activities.

The Collection Table comes with a complete set of simple assembly instructions.

This table is not meant to be permanently installed, which means that it can be moved around the playground as your needs change.
