Toxicity: child friendly wood preservative
Age Appropriateness: all ages

Raised Bed Gardens

The beauty, versatility, and learning opportunities that gardens bring to playgrounds is immeasurable.

No end of research has been done on the value of teaching children how to plant and grow living things. And when they can harvest flowers, fruits, or vegetables, the circle is complete, and they understand how to care for the wonderful things in nature.

These fantastic Raised Beds make it very easy to have raised bed gardens on your school grounds -- or at your home! These are differently sized beds with 3 different heights. You can put 2 end-to-end to get a 4’x8’, etc.

We also offer a large 4’x8’x34” high, ADA compliant Raised Bed that a wheelchair can fit under!!

Planter beds DO NOT NEED to be any deeper than ~8-12”, even if you place them on a hard surface, so we offer both ~8 inch and ~12 inch depths.

Our new offering is the Patio Bed for renters or condo owners -- or anyone else -- with tight spaces on balconies or backyards. See the image below for the raised bed that fits tightly in a corner space. It measures 6’ on a side, is 2 feet wide, and is 2’ high! 20 square feet of growing space is great for any number of flowers and/or vegetables!

Very easy assembly instructions.
