This is a slightly different balance challenge, in that boards are on edge which makes balancing an extremely difficult challenge requiring full body engagement similar to the skill and judgment needed when walking on a tight rope.

Best for older children and adults. The longer, the more challenging, so please specify length of this course item. A tremendous confidence builder!

Comes as a kit for permanent or temporary installation; complete installation instructions are included.

Each section is 8’ long x 8” high in-ground mounting posts.

Order as many as you want to make a long and challenging balance game!
