RAISED BED GARDEN SIDES (8" depth)

Just a quick note: These are not a complete package! They are individual pieces that can make up any size and any shape of raised bed that you want, so please read below carefully to determine what you would like to order! If you're making square or rectangular beds, we tell you what to order in the list below!

The beauty, versatility, and learning opportunities that gardens bring to playgrounds is immeasurable. No end of research has been done on the value of teaching children how to plant and grow living things. And when they can harvest flowers, fruits, or vegetables, the circle is complete, and they understand how to care for the wonderful things in nature.

These fantastic, modular, Raised Bed Planter elements make it very easy to put together raised bed gardens of any size and shape!

And planter beds DO NOT NEED to be any deeper than 8-12", even if you place them on a hard surface.

So -- we make the sides of the bed in 8 inch and 12 inch depths/heights (the selection you're reading now is for the 8" depth), and lengths of 2 feet, 4 feet, and 8 feet, so you can make all of these raised bed sizes: 2'x2', 2'x4', 2'x8', 4'x4', 4'x8', 8'x8'.

IN ADDITION (and this is the fabulous part), with a selection of lengths, you can make curved, round, S-shaped, or combinations of curvilinear shapes and square ones.

You can make star shapes, triangles, spirals, and other geometric shapes! You can make shapes that look like people or animals. You can make a layered gardens like a layered cake. You can set up two curved gardens with a walking path between.

The possibilities are endless!

With the flexibility these raised bed elements give you, you could make a raised bed around a tree or column, or you could make a curved, raised bed garden that sets aside a quiet area in your playground.

You could even use these for loose parts, and let your children play with them to their heart's content, making forts, and pathways, and geometric shapes of all kinds

This unique design element allows you to introduce more natural, organic shapes into your play and learning environment, and to create green spaces that are visually attractive, and that decorate your playground in ways that are fun, interesting, and challenging.

If you have a unique shape for a raised bed garden in mind, let us know, and we can tell you how many pieces, and what lengths you need.

These are truly one-of-a-kind, easy to install, playground elements that are both playful and useful. Your children will have a ball experimenting with different shapes before finally deciding on one to fill with dirt and plant.

If you need soil for the raised bed, we can also provide that, or at the least, tell you how much you need to get!

NOTE: these are sold as individual pieces, and each comes with the correct length pin for the corner -- so you can make whatever sized Raised Bed you want!!

HINT: If you want to make a 2' x 4' raised bed, you'd order two lengths of 2 foot sections, and two lengths of 4 foot sections. The four pins would be included!

HINT: the pins we provide are a little longer so you can pound them into the ground 3-4 inches. This is not necessary, but in case you wanted to anchor the corners, you have that option. If you're going to put these beds on a hard surface, let us know, and we'll give you shorter pins!!

Standard sized beds:

If you want a bed that is 2'x2'. order 4 sections of 2'

If you want a bed that is 2'x4'. order 2 sections of 2', & 2 sections of 4'

If you want a bed that is 2'x8'. order 2 sections of 2', & 2 sections of 8'

If you want a bed that is 4'x4'. order 4 sections of 4'

If you want a bed that is 4'x8'. order 2 sections of 4', & 2 sections of 8'

If you want a bed that is 8'x8'. order 4 sections of 8'

If you want a special shape (star, circle, triangle, longer than 8', a narrow bed that follows a straight or curved sidewalk, or any other imaginable shape), CALL US TOLL FREE: 888-290-8405

NOTE: These can also be used to create interesting Fall Zone retainer shapes around playground equipment!!
