Wood Protector Sprayer

liquid_sprayer.jpg

Shipping Weight: 5 lbs
Shipping Dimensions: 12"L X 12"W X 12"H
Brand:
Toxicity:
Age Appropriateness:

This Sprayer is perfect for spraying on our (or other) child-friendly preservative!

No need for brushes, rags, rollers, or dirty hands. Fill up this sprayer (partially filling it works just fine), pump it up, and you're good to go!

Just walk around your playground (or your house) and spray anything made out of wood twice or more a year. This keeps the wood from drying out, splitting, cracking, and generally looking beat up and weathered.

You should certainly do this with your wooden playground elements, but even if you have just a few wooden items in your backyard, spray them down!

If you have a wooden deck, along with wooden railings (which are IMPOSSIBLE to do with a brush), use this sprayer to treat them, as well!!

But look at this:

This is a very versatile sprayer! It's designed to water, fertilize, control weeds, control pests and apply sealer, as well!

The durable poly, 1 gallon tank has a funnel top for easy filling, an ergonomic handle for easy pumping and carrying, an in-tank anti-clog filter, a clip right on the handle for the wand, AND it's made right here in the USA!!

As a bonus, you could also use it to spray down the kids when the weather's hot :)))))) (clean it out first!!!)

This Sprayer continues to earn high ratings!
