Raised Sand Play Table

SPT-RSP

Shipping Weight: 110 lbs
Shipping Dimensions: 48"L X 25"W X 6"H
Brand: Natural Playgrounds Company
Toxicity: child friendly wood preservative
Age Appropriateness: all ages

It’s difficult for kids in wheelchairs or with other mobility challenges to play in the sand, so this Raised Sand Play Table brings the sand up to them!

It’s 18” wide x 48” long, and we can make it any height, but typical clearance under the able is 27”.

This is also a great collection table, planting table, potting table, or loose parts play table, and is portable, so it can be moved anywhere, like into the garden, near the sand play area, out in the open for several kids to gather around, or wherever.

These would also make great work tables! Arrange four of them in a cross shape, and a number of kids can work safely together around them.
