Boot Rack (rolling)

BootRackStorage

Shipping Weight: 125 lbs
Shipping Dimensions: 60"L X 52"W X 24"H
Brand: Natural Playgrounds Company
Toxicity: child friendly wood preservative
Age Appropriateness: all ages

After requests from several of our customers, we are now offering this neat Boot Rack storage solution for boots and shoes.

It's on 5" casters, so it can easily roll around your outdoor area, or rolled indoors for safe keeping (or if the weather turns bad).

The Boot Rack is extremely efficient! It stores 30 pairs of boots in a small, cute rack that measures 24" deep x 55" wide x a little over 4' tall (so the "footprint" is 2' x 55". If you have 12"x12" floor tiles, the rack is 2 tiles wide and 4-1/2 tiles long).

Two of the casters on one end swivel, so it can easily be pushed around by kids of any age!

This a very inexpensive way to organize and manage boots so they're not all piled up in one place, or spread all over the floor.

The ends of the boot holders are 1"x1-1/2", so you can easily affix names so young kids learn how to recognize themselves!

Note that this item is made with kid-friendly pressure treated wood, which has a slightly green tinge, so these images are a close, but not accurate, representation of the color.
